

## Our investment in social responsibility

### Reach For A Dream

In April, children from Swallows Ridge Orphanage, their caretaker, volunteers from The Reach for a Dream Foundation and Spoor & Fisher were treated to a day trip to Farmyard Frenz. It was a delightful day crammed with reptile shows, magic tricks and more. The children enjoyed feeding the horses, goats, birds and other animals and having their faces painted. (Ref: Photo 1)

### National Association For Blind Bowlers

One of the new social responsibility projects for 2009 is the sponsoring of the National Association for Blind Bowlers (NABB). The sixth World Championships for Blind Bowls was held in Melbourne from 21 April to 02 May this year and South Africa put together a team of six bowlers, six coaches, a team manager and an assistant manager. The team needed caps, shirts and long-sleeve tops and Spoor & Fisher was the proud sponsor of their attire. Although the Australian team took first place, our South African team did very well, coming second overall by winning one bronze medal, four silver medals and two gold medals. Another prestigious achievement by the South African team was the nomination of Cathy Donaldson, the first woman and first blind person to hold the position of President of the International Blind Bowlers Association.
